Deciduous Trees	30
Lilacs	36
Oriental Magnolias	39
Flowering Quinces	44
Deciduous Shrubs	47
Climbers	51
Wisterias, Climbing and Tree Form	52

Prices. All prices and other quotations not accepted to date are hereby cancelled.

Because of rapidly changing conditions we reserve the right to revise prices in this list if necessary, but we will advise all customers of any changes made before date of shipment.

All prices are for goods at our nursery unless otherwise stated.

Terms. To buyers of known and established credit, 60 days net from date of invoice. Otherwise cash with order or 25 per cent with order, balance C.O.D.

Grading and Packing. Plants wider than tall are graded by width. Packing at cost, as usual. Plants will be packed to secure the lowest possible classification consistent with the nature of the goods shipped.

Shipping. Our responsibility ceases when goods are delivered to transportation company in good order. They travel at buyer's risk. Please state distinctly whether you wish goods shipped by freight, express or truck line. A moderate charge will be made for delivery by our trucks to areas over 50 miles distant from nursery.

Warranty. Seller gives no warranty, express or implied, as to the variety or productivity of any nursery stock he sells. Liability in all instances is limited to the purchase price. No liability is assumed by the seller for delay or failure to deliver caused by wars, strikes, fires, floods, droughts, embargoes or any other contingencies beyond seller's control. If the purchaser does not accept the goods on these terms they are to be returned.

Complaints. Must be made in writing within 10 days after buyer receives the goods.

IMPORTANT NOTICE FOR EASTERN NURSERYMEN

Out here everything east of the Rockies is "Eastern."

During January and February we ship several heated refrigerator cars to eastern points. Where size of order justifies, we can nearly always arrange for carload service to destination or some nearby point for pickup or reshipment. The total transportation charges for each car will be prorated among all customers who have goods in it.

New Items

In addition to our regular lines we are continually developing or introducing additional *novelties and specialties*. For the past 25 years we have doubtless imported the greatest assortment of new and rare woody plants brought into this country during that period, and at the same time have carried on a program of breeding various woody ornamentals, including Lilacs, Flowering Quinces, Flowering Fruit Trees, etc.

In order to call your attention to some of these items that are now available we have "boxed in" many plants of special interest.

For less than five of a kind and size of these items, please add 10%.

ABBREVIATIONS

Letters A, B, C, D, E, etc., after variety names indicate sizes available.

DESCRIPTIONS

Short descriptions have been included in this list. Where further information may be desired it will be given promptly on request.

HARDINESS RATINGS

As this list goes all over the U.S.A. and also abroad, we believe it a good idea to indicate hardiness. This has been done by giving after the name of each item a number in () indicating the one up to which it is considered hardy. Please understand that ratings show our honest opinion, but we disclaim all responsibility for their correctness. Please refer to map in center of book, used by courtesy of Arnold Arboretum and McGraw Hill Book Co.

PINTO TAG

We take pride in being a "Pinto Tag" nursery, enabling us to ship into nearly all California Counties with no point of destination inspection required.

LOCATION

Office and Sales Yard located on the old Oakland-San Jose Highway at Coyote Creek Bridge, about one mile north of San Jose City Limits. Other growing grounds are within a mile or two of the office. Visiting nurserymen are welcome at all times.

Conifers

Unless otherwise stated, all plants in this section will be balled at prices quoted.

ABIES concolor (6)

WHITE FIR

The famous Silver Fir of the Sierras. Resistant to drought and heat. Moderately slow growing.

gal.75

grandis nana (6)

DWARF GRAND FIR

A very attractive and distinctive addition to the dwarf conifers. Growth slow and compact.

4 in. pot60

nordmanniana (4)

NORDMANN FIR

One of the very best Firs. Needles dark glossy green above and silvery beneath.

gal.75

pinsapo (6)

SPANISH FIR

Very regular and symmetrical. Stiff green needles.

gal.75

pinsapo glauca (6)

BLUE SPANISH FIR

Foliage silvery. Slower and more compact grower than preceding variety.

4 in. pot60

CEDRUS atlantica glauca (6)

BLUE ATLAS CEDAR

Young plants have a stiff open appearance but quickly develop into beautiful full specimens.

5 to 6 ft. 4.50

4 to 5 ft. 4.00

3½ to 4 ft. 3.50

3 to 3½ ft. 3.25

2½ to 3 ft. 3.00

deodara (7)

DEODAR CEDAR

Makes a large graceful specimen tree. Foliage gray-green.

3 to 4 ft. 3.00

2½ to 3 ft. 2.00

2 to 2½ ft. 1.85

1½ to 2 ft. 1.50

gal.50

CONIFERS

CEDRUS (continued)

deodara compacta (7)

A slower growing compact form.

6 to 7 ft.	4.50
5 to 6 ft.	4.00
4 to 5 ft.	3.50
3 to 4 ft.	3.00
2½ to 3 ft.	2.50

deodara repandens (7)

SPREADING DEODAR CEDAR

A very attractive weeping form of picturesque habit.
Should be staked for first few years.

2½ to 3 ft.	3.00
2 to 2½ ft.	2.75
1½ to 2 ft.	2.50

CHAMAECYPARIS lawsoniana ellwoodi (5)

ELLWOOD CYPRESS

A moderate grower of columnar habit. Foliage silvery blue, fine and lacy. Grafted plants have proven to be more vigorous and disease resistant.

2 to 2½ ft.	2.50
1½ to 2 ft.	2.25
5 gal.	2.25
gal.	.75

lawsoniana forsteckiana (5)

FORSTECK CYPRESS

Dwarf, globular form with dense crowded branchlets, giving the appearance of deep green moss.

4 in. pot	.60
-----------	-----

lawsoniana grandi (5)

Similar to Birdnest Cypress but with glaucous foliage.

2½ to 3 ft.	2.25
2 to 2½ ft.	2.00
5 gal.	2.00

lawsoniana knowfeldensis (5)

KNOWFELD CYPRESS

Habit graceful, upright and arching. Sage green foliage.

2½ to 3 ft.	2.25
2 to 2½ ft.	2.00
1½ to 2 ft.	1.75
1 to 1½ ft.	1.60
gal.	.75

CONIFERS

CHAMAECYPARIS (continued)

lawsoniana minima (5)

DWARF LAWSON CYPRESS

Extremely dwarf and compact with dark green plume foliage.

gal.	1.25
4 in. pot	1.00

lawsoniana minima aurea (5)

GOLDEN DWARF LAWSON CYPRESS

Differs only from above in its golden foliage.

4 in. pot	1.00
-----------	-------	------

lawsoniana moerheimi (5)

MOERHEIM GOLDEN LAWSON CYPRESS

Bushy, erect habit. Tips of branches yellow variegated. A good sturdy grower and transplants easily.

5 to 6 ft.	4.00
3 to 4 ft.	3.50
2½ to 3 ft.	3.00
2 to 2½ ft.	2.50
1½ to 2 ft.	2.00
5 gal.	2.00
gal.75

lawsoniana nidiformis (5)

BIRDNEST CYPRESS

Branches semi-ascending and drooping toward tips. Natural growth wider than tall.

1½ to 2 ft.	2.00
1 to 1½ ft.	1.75
gal.75

lawsoniana stewarti (5)

WINTERGOLDEN LAWSON CYPRESS

Growth slow, compact and erect. Remains as brilliantly golden in winter as in summer.

3 to 4 ft.	3.50
2½ to 3 ft.	3.00
2 to 2½ ft.	2.50
1½ to 2 ft.	2.00
5 gal.	2.00
gal.75

obtusa nana (3)

DWARF HINOKI CYPRESS

4 in. pot	1.00
-----------	-------	------

obtusa nana aurea (3)

GOLDEN DWARF HINOKI CYPRESS

4 in. pot	1.00
-----------	-------	------

CONIFERS

CHAMAECYPARIS (continued)

pisifera aurea compacta nana (3)

YELLOWDWARF SAWARA CYPRESS

Extremely dwarf and compact. Golden acute foliage.
4 in. pot 1.00

CRYPTOMERIA japonica nana (5)

DWARF CRYPTOMERIA

Slow growing globular habit.
gal.75

JUNIPERUS chinensis columnaris (4)

BLUE COLUMN JUNIPER

Erect formal pyramidal habit. Foliage slightly silvery.

7	to 8	ft.	7.00
6	to 7	ft.	6.00
5	to 6	ft.	5.00
4	to 5	ft.	4.00
3½	to 4	ft.	3.50
5 gal.			2.00

chinensis Maney (4)

MANEY JUNIPER

Semi-erect, spreading bushy habit with a bluish cast in the color of foliage.

3	to 3½	ft.	3.00
2	to 2½	ft.	2.25
1½	to 2	ft.	2.00
5 gal.			2.00
gal.			.75

chinensis Obelisk (4)

OBELISK JUNIPER

A hardy, narrow columnar form with very long, rigid needles of a fine, never-changing blue color. Requires no trimming.

2	to 2½	ft.	2.50
1½	to 2	ft.	2.00
5 gal.			2.00

chinensis pfitzeriana (4)

PFITZER JUNIPER

Fast growing spreading Juniper with deep green foliage.
gal.55

chinensis procumbens albo-variegata (4)

WHITELEAF CHINESE CREEPING JUNIPER

Growth slow, low and spreading, with attractive white variegation.

1½	to 2	ft.	2.00
1	to 1½	ft.	1.75
5 gal.			2.00

CONIFERS

JUNIPERUS (continued)

chinensis "San Jose" (4)

SAN JOSE SPREADING JUNIPER

Found here as a sport of one of the creeping Junipers. Color is about sage green, much more pleasing than Chinese Creeping Juniper. Shows no variegation but has a mixture of adult and juvenile foliage. After many years test it has become very popular and is now our best seller in prostrate Junipers.

3 to 3½ ft.	2.75
2½ to 3 ft.	2.50
2 to 2½ ft.	2.25
1½ to 2 ft.	2.00
1 to 1½ ft.	1.75
5 gal.	2.00
gal.	.75

chinensis torulosa (4)

TWISTED CHINESE JUNIPER

Growth gracefully fanshaped, upright and arching.
Dark green foliage.

4 to 5 ft.	4.00
3½ to 4 ft.	3.50
3 to 3½ ft.	3.00
2½ to 3 ft.	2.50
2 to 2½ ft.	2.25
1½ to 2 ft.	2.00
5 gal.	2.00
gal.	.65

communis compressa (2)

"DWARF IRISH JUNIPER"

Dwarf, slender and erect with deep silvery foliage.

4 in. pot	1.00
-----------	------

occidentalis glauca (7)

SILVER SIERRA JUNIPER

A fine silvery blue form of the Sierra Juniper. Habit slim and conical.

4 to 5 ft.	4.00
3 to 4 ft.	3.50
2½ to 3 ft.	3.00

sabina (4)

SAVIN JUNIPER

A vigorous, hardy, spreading Juniper.

gal.	.50
------	-----

sabina tamariscifolia (4)

TAMARIX JUNIPER

Slow growing, low spreading Juniper with blue-green foliage.

1½ to 2 ft.	2.00
1 to 1½ ft.	1.75
gal.	.55

CONIFERS

JUNIPERUS (continued)

squamata meyeri (4)

MEYER JUNIPER

Irregular spreading habit. Foliage silvery blue.

2½ to 3 ft.	2.50
2 to 2½ ft.	2.25
1½ to 2 ft.	2.00
1 to 1½ ft.	1.75
gal.	.75

virginiana lebretoni (3)

LEBRETON EASTERN REDCEDAR

Growth erect and compact. One of the most intensely glaucous conifers known.

6 to 7 ft.	4.50
5 to 6 ft.	4.00
4 to 5 ft.	3.50
3 to 4 ft.	3.00
2½ to 3 ft.	2.50
2 to 2½ ft.	2.25

LIBOCEDRUS chilensis (6)

CHILEAN INCENSE-CEDAR

A symmetrical pyramidal conifer. Foliage soft green.

6 to 7 ft.	4.50
5 to 6 ft.	4.00
2 to 2½ ft.	2.50
5 gal.	1.85
gal.	.60

decurrens (5)

INCENSE-CEDAR

A very symmetrical pyramidal form; tall and compact, with dark green foliage.

5 gal.	1.85
gal.	.60

METASEQUOIA glyptostroboides (4-5)

DAWN REDWOOD

A beautiful, rapid growing deciduous conifer resembling native California Redwood.

5 gal.	2.50
--------	------

PICEA excelsa (2)

NORWAY SPRUCE

Most popular Conifer for outdoor Christmas trees.
gal. .75

glaucia conica (2)

DWARF ALBERTA SPRUCE

Dense, slow growing conical tree.

18 to 24 in.	3.00
15 to 18 in.	2.50
12 to 15 in.	2.00

CONIFERS

PICEA (continued)

omorika (4)

SERBIAN SPRUCE

Narrowly pyramidal tree of dense growth with very graceful drooping branches. Needles dark green, silvery beneath.

1 to 1½ ft.	1.75
-------------	------

orientalis aurea (4)

GOLDEN ORIENTAL SPRUCE

Tall tree with densely compact bronzy golden needles on semi-drooping branches.

4 in. pot	.60
-----------	-----

pungens (green) (2)

COLORADO SPRUCE

A formal tree with close stiff branches. Color varies from light to dark green.

1½ to 2 ft.	2.50
1 to 1½ ft.	2.00
5 gal.	2.50
gal.	.85

pungens kosteriana (2)

KOSTER BLUE SPRUCE, and

pungens moerheimi (2)

MOERHEIM BLUE SPRUCE

Improved deep blue forms of Colorado Spruce.

4 in. pot grafts	1.00
------------------	------

smithiana (6)

HIMALAYAN SPRUCE

Tall pyramidal tree with long drooping branches.

2 to 2½ ft.	2.50
1½ to 2 ft.	2.25

PINUS mugo mughus (2)

DWARF MUGHO PINE

Probably the dwarfest of all Pines. Grows about as wide as high.

5 gal.	2.00
gal.	.75

patula (8?)

JELECOTE PINE

Long drooping needles. Spreading, rounded head.

gal.	.75
------	-----

CONIFERS

SEQUOIA sempervirens (7)

REDWOOD

Tall, graceful native of California.

5 gal.	2.00
gal.	.60

TAXUS baccata fastigiata (6)

IRISH YEW

Columnar habit, dark green foliage. Slow growing.

4 to 4½ ft.	4.50
3½ to 4 ft.	4.00
3 to 3½ ft.	3.50
2½ to 3 ft.	3.25
2 to 2½ ft.	3.00
5 gal.	2.50

baccata fastigiata aurea (6)

GOLDEN IRISH YEW

gal.	1.00
------	------

baccata pendula (4)

WEEPING ENGLISH YEW

Hardy weeping form, fine for base planting.

gal.	1.00
------	------

baccata Silver Green (6)

SILVER GREEN SPREADING YEW

A neat compact spreading form with rich deep green foliage with a slight silvery cast.

1½ to 2 ft.	2.00
-------------	------

THUYA occidentalis pyramidalis (2)

PYRAMIDAL EASTERN ARBORVITAE

Narrow pyramidal habit. Deep rich green foliage.

5 to 6 ft.	4.00
4 to 5 ft.	3.50
3½ to 4 ft.	2.75
2½ to 3 ft.	2.25
gal.	.60

orientalis aurea nana (5-6)

BERCKMANN'S GOLDEN ARBORVITAE

Dwarf, compact form of rich golden color.

10 to 12 in.	1.50
--------------	------

orientalis compacta (4-5)

COMPACT ORIENTAL ARBORVITAE

A slow-growing, compact, green form.

1½ to 2 ft.	2.00
15 to 18 in.	1.75

**For a complete and up-to-date
descriptive list of BUSH, CLIMBING
and TREE Roses ask for our
List No. 5501**

Broad Leaved Evergreens

Unless otherwise stated, all plants in this section will be balled at prices quoted.

ABELIA floribunda (8)

MEXICAN ABELIA; RED ABELIA

Small shrub with glossy dark green foliage producing tubular rosy red flowers $1\frac{1}{2}$ to 2 inches long. Requires partial shade.

5 gal.	1.75
gal.	.50

hyb. Edward Goucher (6)

Similar to *A. grandiflora* but bearing lilac-pink instead of white flowers in great profusion throughout the summer.

2 to $2\frac{1}{2}$ ft.	1.75
5 gal.	1.75
gal.	.50

ARBUTUS unedo (7)

STRAWBERRY MADRONE

Large, handsome shrub with dark green leaves. Bears red strawberry-like fruits in winter.

3 to 4 ft.	2.50
2 to $2\frac{1}{2}$ ft.	1.75
$1\frac{1}{2}$ to 2 ft.	1.60
gal.	.50

unedo compacta (7)

Growth slower and more compact.

gal.	.55
------	-----

ARDISIA japonica (6)

JAPANESE ARDISIA

An attractive slow growing acid-loving shrub to 18 in. high. When only four or five inches tall it commences to bear pale pink flowers followed by showy red berries.

gal.	.65
------	-----

ARISTOTELIA racemosa (8?)

NEW ZEALAND WINEBERRY

An evergreen tree to 15 or 20 ft. Leaves about 5 inches long and deeply serrate, light green on surface and ruddy beneath. Small rose colored flowers are followed by dark red or nearly black berries in clusters.

5 gal.	2.00
gal.	.60

BROAD LEAVED EVERGREENS

AUCUBA japonica (male) (7)

JAPANESE AUCUBA

All of our berry-bearing Aucubas are grown from cuttings taken from female plants but must be pollinated by male plants in order to produce berries.

5 gal.	1.85
gal.	.60

japonica Croton (7)

CROTONLEAF AUCUBA

Slower growing but otherwise similar to other variegated Aucubas but the brilliance and intensity of its golden variegation far surpasses them. This is a male form and can be used as a pollinizer.

1 1/2 to 2 ft.	2.00
----------------	------

japonica fructo-albo (7)

Foliage profusely and brightly silver-variegated. Fruit pale pinkish-buff. Requires shade.

5 gal.	2.00
gal.	.75

japonica maculata (7)

GOLD DUST AUCUBA

Large green leaves covered with yellow dots. Berries red.

5 gal.	1.75
gal.	.60

japonica nana (7)

DWARF AUCUBA

A dwarf green leaved form bearing heavy clusters of unusually large berries.

1 1/2 to 2 ft.	2.50
gal.	.75

japonica salicifolia (7)

LANCELEAF AUCUBA

Leaves clear deep green, long and narrow. Bears heavy clusters of bright red berries.

2 1/2 to 3 ft.	2.50
5 gal.	1.85
gal.	.60

japonica "San Jose" (7)

SAN JOSE DWARF AUCUBA

A slower growing form with a somewhat spreading habit. Foliage, large, shiny dark green with no variegation.

gal.	.75
------	-----

AZARA lanceolata (9)

LANCELEAF AZARA

Handsome shrub or small tree with slightly drooping branches bearing masses of fragrant yellow flowers.

gal.	.60
------	-----

BROAD LEAVED EVERGREENS

AZARA (continued)

microphylla (9)

BOXLEAF AZARA

A vigorous, graceful shrub with small bright green leaves and small yellow fragrant flowers.

gal.50

BERBERIS *stenophylla irwini* (B. *gracilis*) (5)

IRWIN BARBERRY

A compact neat shrub with gracefully arching branches. Deep yellow flowers followed by attractive blue berries.

gal.60

CALLIANDRA *guildingii* (8)

TRINIDAD FLAMEBUSH

Medium sized shrub with feathery foliage. Flowers (stamens) are vivid scarlet borne in great profusion.

gal.50

CALLISTEMON *citrinus splendens* (9)

BRILLIANT BOTTLEBRUSH

The most vividly colored red "Bottlebrush" we have ever seen. Heavy bloomer and of compact habit.

5 gal. 1.85

gal.55

CAMELLIA *japonica* (7)

CAMELLIA

A 4 to 5 ft.	3.50
B 3 to 4 ft.	3.00
C 2½ to 3 ft.	2.50
D 2 to 2½ ft.	2.25
E 1½ to 2 ft.	2.00

Letters after varieties indicate sizes available.

Abundance, white; peony form. BCD

alba plena, double white; formal. E

Kumasaka, rose pink; double rose form. DE

Lady Van Sittart, deep rose pink, semi-double. BC

magnoliaeflora, light pink, semi-double. C

Pink Ball, soft pink, full peony form. A

CEANOTHUS *gloriosus* (8-9)

POINTREYES CEANOTHUS

A splendid prostrate form. Flowers large, profuse and deep blue. Grows well and covers the ground like a mat.

5 gal. 1.85

gal.60

griseus horizontalis (8-9)

CARMEL CREEPER

A fast growing, spreading variety. Flowers light blue.

gal.60

BROAD LEAVED EVERGREENS

CEANOTHUS (continued)

impressus (9)

SANTA BARBARA CEANOTHUS

Flowers are deep blue in extreme profusion. Usually grows wider than high.

5 gal.	1.75
gal.	.50

Sierra Blue (8-9)

Large clusters of bright blue flowers. Upright habit.
gal. .60

thyrsiflorus (7)

BLUEBLOSSOM CEANOTHUS

Habit upright. Foliage dark green and glossy. Flowers deep blue.
gal. .50

thyrsiflorus repens (7)

CREEPING BLUEBLOSSOM

One of our best and hardiest creeping "Wild Lilies". Flowers deep blue.

5 gal.	1.85
gal.	.60

CHOISYA ternata (6-7)

MEXICAN-ORANGE

A compact free blooming shrub. Attractive green foliage; flowers pure white and fragrant.

3 to 3½ ft.	2.50
2½ to 3 ft.	2.25
2 to 2½ ft.	2.00
1½ to 2 ft.	1.75
1 to 1½ ft.	1.60
5 gal.	1.75
gal.	.50

CISTUS Doris Hibberson (7?)

Handsome small sun-loving Rockrose with gray-green foliage and clear pink flowers in profusion.
gal. .60

CITRUS limon meyeri (8?)

MEYER CHINESE LEMON

Useful as well as ornamental. Makes a good rounded shrub. Flowers and fruits freely even when very young. Lemons are deep yellow and of good quality. Our stock is clean and can be shipped anywhere.

2½ to 3 ft.	2.75
2 to 2½ ft.	2.50
1½ to 2 ft.	2.25
5 gal.	2.00
gal.	.60

Eureka Lemon (9?)

Medium sized fruit, with few seeds. Ripens almost continuously throughout the year.

2 to 2½ ft.	2.50
1½ to 2 ft.	2.25
5 gal.	2.00
gal.	.60

BROAD LEAVED EVERGREENS

CITRUS (continued)

✓ **Rangpur Lime (9½)**

Orange-red tangerine shaped fruit.

2 to 2½ ft.	2.50
1½ to 2 ft.	2.25
5 gal.	2.00
gal.	.60

sinensis (9)

COMMON ORANGE

Excellent for tall hedges.

gal.	.50
------	-----

✓ **sinensis Washington Navel Orange (9)**

Grown in bush form.

gal.	.60
------	-----

CLETHRA arborea (9)

LILY-OF-THE-VALLEY CLETHRA

A vigorous large shrub of quick growth. Pure white, richly fragrant flowers borne in terminal panicles strongly resemble those of Lily-of-the-Valley. Requires acid soil.

5 gal.	2.00
gal.	.60

COLEONEMA pulchrum (7-8)

PINK BREATH-OF-HEAVEN

Bears a profusion of bright rosy pink flowers in late winter.

gal.	.45
------	-----

CORNUS capitata (5)

EVERGREEN DOGWOOD

Large shrub bearing clusters of creamy white petal-like bracts.

gal.	.60
------	-----

CORREA harrisi (9)

RED AUSTRALIAN CORREA

Small shrub bearing tubular flowers, solid red. Blooms from about November thru March. Will thrive in sun or shade.

gal.	.60
------	-----

magnifica (9)

YELLOW AUSTRALIAN CORREA

gal.	.50
------	-----

neglecta (9)

CORAL AUSTRALIAN CORREA

A neat slow growing shrub of compact habit. Flowers soft orange-scarlet.

gal.	.60
------	-----

BROAD LEAVED EVERGREENS

CORREA (continued)

pulchella (8-9)

PINK AUSTRALIAN CORREA

Low growing shrub with dainty bell-shaped flowers from about mid-October thru mid-April.

gal.50

COTONEASTER *apiculata* (4)

CRANBERRY COTONEASTER

Far superior to any of the other low spreading growers. The berries are gorgeous, largest of the Cotoneasters so far as we know. Our grafted plants commence bearing the first year as a rule.

5 gal. 1.85

gal.60

conspicua decora (7)

NECKLACE COTONEASTER

Small graceful shrub, almost prostrate. Bears an enormous crop of bright red berries all along the slender, arching branches.

gal.50

CRINODENDRON *dependens* (8)

WHITE LILY TREE

An excellent small evergreen tree of quick growth; of good habit with gray-green foliage and bearing hanging white bell-shaped flowers. Grows well in any good soil.

gal.50

CYTISUS *barkwoodi* (6)

BURKWOOD BROOM

Garnet red. Vigorous, upright habit.

gal.50

kewensis (6)

KEW BROOM

A slow growing, spreading form to 1 ft. in height. Flowers profuse, pale sulphur yellow.

gal.60

Maria Burkwood (6)

Red with creamy yellow keel. Spreading habit.

gal.50

DAPHNE *barkwoodi* (5)

BURKWOOD DAPHNE

Flowers identical with *D. somerset* but of lower growing and more compact habit.

2 $\frac{1}{2}$ to 3 ft. 2.50

2 to 2 $\frac{1}{2}$ ft. 2.25

1 $\frac{1}{2}$ to 2 ft. 2.00

GRAFTED RHODODENDRONS

We are agents for **Cottage Gardens Co.** of Eureka, California, and offer an extensive list of varieties in assorted sizes, all flower budded, for delivery this winter. Write us for quotations.

HARDI NESS MAP

HOW TO USE THIS MAP

From it determine what zone you are in. Every item carrying your zone number **or a smaller number** should be hardy with you. If you want to gamble on those rated **one zone greater**, there is at least a chance for success but two zones greater will probably be hopeless.

For full explanation of the entire system see Page 2.

Flowering Fruit Trees

All plants in this section will be dug "bare roots." Grading is by caliper and approximate height, except Cherries.

(Orders must be in multiples of 5 of a variety).

Lilacs

SYRINGA vulgaris (3)

We fully believe that our active propagating list embraces the most up-to-date collection of lilacs offered to the trade in this country.

It seems absurd to see so many ancient varieties still being listed. They were all good when originated 75 or 100 years ago but there has been plenty of progress in the meantime, particularly in the size of the individual flowers or "florets" as they are sometimes called and also in a wider range of color tones. If your collection is not really up-to-date why not do something about it?

All lilacs from 1½ ft. up have been pinched and are well-developed, branched plants.

For Eastern shipments we recommend the 1½ to 2 ft. grade.

(Lilacs must be ordered in multiples of 5 of each variety as they are bundled in that way when dug).

NOVELTIES

B 3	to 4	ft.	1.75
C 2	to 3	ft.	1.50
D 1½	to 2	ft.	1.25

Letters after varieties indicate sizes available.

CLARKE'S GIANT, CD, Plant Pat. No. 754.

The flowers are **single**, soft gentian blue of enormous size, 1¼ to 1½ inches across, borne in huge clusters of unusual pyramidal form, up to 12 in. or better and 7 to 8 in. wide at base. Flower clusters are carried well above the large foliage. Fragrance leaves nothing to be desired.

ESTHER STALEY, BCD, Plant Pat. No. 768

Fills all the requirements of a good single pink lilac. Opening buds are red; flowers, large **single**, and pure pink without the usual lavender tinge. Clusters are of good size and produced freely in midseason; growth very vigorous.

MME. CHAS. SOUCHET, BCD

"This beautiful novelty will create a great sensation among Lilac lovers. Very large and regular **single** flowers of the purest sky blue with enormous panicles. This variety is very floriferous and even blooms on young plants."

PINK SPRAY, BCD, Plant Pat. No. 831

A delightful **single** pink variety which is earlier than Esther Staley and a somewhat softer pink, contrasting well with the dark rosy mauve buds. The flowers have a daintiness and charm which is hard to describe and is enhanced by the stamens showing prettily. Cut flowers last unusually well.

PURPLE GLORY, BCD; Plant Pat. No. 946

Long pyramidal clusters. Flowers **single**, 1 to $1\frac{1}{2}$ inches wide, dark ruddy purple. Mid-late.

PURPLE HEART, BCD, Plant Pat. No. 832

This very early variety has purplish black buds opening to deep purple, **single**, very large flowers attaining between $1\frac{1}{4}$ to $1\frac{1}{2}$ inches in width, borne in large clusters. Preferred by many to Marceau which is high praise indeed.

SPLENDOR, BCD, Plant Pat. No. 837

The dark ruddy purple buds open to purplish blue, moderately large **double** flowers in clusters of good size. Blooming time is from mid-season to late as it flowers over an unusually long period. The flowers are definitely not crowded together in the cluster, avoiding a trait that completely spoils so many otherwise good doubles. The bronzy hue of the new growth is another uncommon character.

SUNSET, BCD, Plant Pat. No. 937

A striking late **double** that is unusual in several respects. Buds are deep mauve carmine; the fully double flowers with numerous long "petals" are large, over an inch wide and ruddy purple. Comes nearer to a real "double red" than anything else we have ever seen. In our opinion this surpasses Mrs. Edward Harding.

SWEETHEART, BCD, Plant Pat. No. 1128

The very striking and unique contrast between the color of the buds and open flowers makes this a most desirable variety. The buds are deep ruddy mauve. The open flowers are medium large, **double**, palest possible lavender, appearing almost white. Clusters are of medium size, borne in mid-season.

Oriental Magnolias

We grow what is probably the most complete collection of deciduous Magnolias in this country and take great pleasure in offering this fine list.

All plants are grafted and will be balled at prices quoted.

SPECIAL VARIETIES

MAGNOLIA campbelli (7)

CAMPBELL MAGNOLIA

This grand Magnolia from the foothills of the Himalayas has been celebrated in horticultural literature for many decades, but owing to difficulty of propagation there have been only a few trees in the U. S. A. and none of these had been known to flower until the specimen in Golden Gate Park, San Francisco, first bloomed in the spring of 1940. The flowers are rosy pink and range anywhere from 8 to 14 inches wide. It prefers cool, moist conditions and here anyway does not like the full sun when young. We are now producing this wonderful Magnolia in fairly good numbers and all our stock traces back to the tree mentioned above. Grafting should hasten blooming and in fact flowers have already been reported on some of our early propagation.

6 to 8 ft.....	9.00
5 to 6 ft.....	8.00
4 to 5 ft.....	7.00
3 to 4 ft.....	6.00

campbelli alba (7)

WHITE CAMPBELL MAGNOLIA

A gorgeous pure white form of M. campbelli.

5 to 6 ft.....	8.00
3 to 4 ft.....	6.00

dawsoniana (7)

DAWSON MAGNOLIA

A magnificent, vigorous and distinct species with large dark green foliage with wavy margins. Flowers in great profusion up to 10 to 15 inches wide. Rose violet outside and white within. Very rare and stock limited.

6 to 8 ft.....	6.00
5 to 6 ft.....	5.00
4 to 5 ft.....	4.00
3 to 4 ft.....	3.00

MAGNOLIA (continued)***liliflora gracilis* (5)**

This is a very rare and striking variety. Buds are pansy black. Open flowers are almost that dark outside and dark velvety purple inside. Flowers are large and produced freely even on young plants. Do not confuse with *M. liliflora*, the common purple Lily Magnolia.

6 to 8 ft.....	6.00
5 to 6 ft.....	5.00
4 to 5 ft.....	4.00

***mollicomata x campbelli* (7)**

Original plants raised from seed collected from a good form of *M. campbelli* and pollinated by *M. mollicomata*.

6 to 8 ft.....	9.00
5 to 6 ft.....	8.00
4 to 5 ft.....	7.00

sargentiana robusta* (7)*SARGENT MAGNOLIA**

An outstanding variety. Flowers are large and a beautiful blend of pink and white.

4 to 5 ft.....	4.00
3 to 4 ft.....	3.00

sinensis* (7)*CHINESE MAGNOLIA**

A lovely variety bearing pendulous saucer shaped pure white flowers with showy brilliant crimson stamens.

3 to 4 ft.....	3.00
2 to 3 ft.....	2.50

***sprengeri diva* (new) (7)**

(Syn. *M. conspicua purpurascens*). One of the rarest and most beautiful Magnolias. Flowers large, rosy pink outside; paler pink with dark streaks inside.

6 to 8 ft.....	7.00
5 to 6 ft.....	6.00
4 to 5 ft.....	5.00

ORIENTAL MAGNOLIAS

MAGNOLIA (continued)

thompsoniana (6)

THOMPSON MAGNOLIA

Large shrub or small tree. The large leaves assume a fine bronzy yellow autumnal tint. The flowers are creamy-white, richly fragrant, and borne freely over a long period commencing in May.

6 to 8 ft.....	7.00
5 to 6 ft.....	6.00
3 to 4 ft.....	4.00

veitchi (7)

VEITCH MAGNOLIA

A magnificent hybrid of *M. denudata* x *campbelli*. Very vigorous and quickly making a large tree bearing a profusion of rosy pink flowers of great size.

6 to 8 ft.....	7.00
5 to 6 ft.....	6.00
3 to 4 ft.....	4.00
2½ to 3 ft.....	3.00

watsoni (6)

WATSON MAGNOLIA

This beautiful Magnolia produces delightfully fragrant creamy-white flowers with rich rose-carmine stamens.

3 to 4 ft.....	6.00
2½ to 3 ft.....	5.00

wilsoni (5)

WILSON MAGNOLIA

Could be described as a glorified *M. parviflora* having very much larger snow white drooping flowers with crimson column arising in center. Fragrance is intense and delightful. Flowers are remarkable in having as many as 8 or more petals together with 3 "tepals" (petaloid sepals).

6 to 8 ft.....	7.00
4 to 5 ft.....	5.00

STELLATA VARIETIES

MAGNOLIA stellata (5)

STAR MAGNOLIA

Fragrant flowers white to soft pink. Slow growing. Free flowering even on very small plants.

4 to 5 ft.....	5.00
3 to 4 ft.....	4.00
2 to 2½ ft.....	3.00
1½ to 2 ft.....	2.50
gal.....	1.25

ORIENTAL MAGNOLIAS

MAGNOLIA (continued)

stellata rosea (5)

PINK STAR MAGNOLIA

A pink form with a more vigorous upright habit. The flowers are larger, heavier petaled and are borne in great profusion, even on young plants.

4 to 5 ft.	5.00
3 to 4 ft.	4.00
2 to 2½ ft.	3.00
1½ to 2 ft.	2.50
gal.	1.25

stellata rubra (5)

RED STAR MAGNOLIA

A striking new and rare form. Back of petals deep purplish red; inside is a rich pink even when fully open. Stock is still very limited.

2½ to 3 ft.	4.50
2 to 2½ ft.	4.00
1½ to 2 ft.	3.50

stellata Waterlily (5)

WATERLILY MAGNOLIA

A more compact pyramidal form of M. stellata. Flowers opening pure white and having more petals with greater substance.

3 to 4 ft.	4.00
2½ to 3 ft.	3.50
2 to 2½ ft.	3.00
1½ to 2 ft.	2.50

GENERAL LIST (5)

Y - 6 to 7 ft.	5.00
X - 5 to 6 ft.	4.50
A - 4 to 5 ft.	4.00
B - 3 to 4 ft.	3.50
C - 2½ to 3 ft.	3.00
D - 2 to 2½ ft.	2.50

Letters after varieties indicate sizes available.

MAGNOLIA denudata (*conspicua*), BCD

YULAN MAGNOLIA

Pure white with a delicate pungent fragrance.

denudata Triumphant, (new) YAB

A new form with large rose colored flowers.

liliflora nigra, YXA

PURPLE LILY MAGNOLIA

Growth shrubby and erect. Flowers deep purple outside.

MAGNOLIA (continued)

soulangeana, YXAB

SAUCER MAGNOLIA

Large shrub or small tree. Flowers basically white, flushed purple on outside toward base of petals.

soulangeana Alexandrina, YXB

ALEXANDER MAGNOLIA

Large cup-shaped flowers, deep rose right to the tops, white inside; early.

soulangeana amabilis (*M. alba superba*), YXAB

Flowers are somewhat purplish at first, becoming nearly but not entirely white when full open.

soulangeana Andre Leroy, B

Large orchid-purple to tips of petals outside; white within. Deliciously fragrant. Late blooming.

soulangeana Brozzoni, YABC

BROZZONI MAGNOLIA

A very fine variety bearing huge flowers (up to 10 in.) when fully open, white, slightly flushed at base.

soulangeana Burgundy, YXABC

BURGUNDY MAGNOLIA

An unidentified but very pleasing and distinct form. The flowers are much larger than type, well rounded, purple about half way up on the outside of the petals.

soulangeana lennei, YXABC

LENNE MAGNOLIA

Bears enormous balloon-shaped, very deep ruddy purple flowers. One of the latest to bloom.

soulangeana lennei alba (new), BC

WHITE LENNE MAGNOLIA

Flowers large, pure white, cup-shaped. Habit of plant similar to *M. lennei*. A welcome addition to white flowered Magnolia soulangeana types.

soulangeana, rubra, YXA

Flowers are distinct in that they are definitely rounded, not long and slender. Color is a deep ruddy purple to tips of petals.

soulangeana rustica, YBC

PURPLE SAUCER MAGNOLIA

Large, rounded flowers, deep ruddy purple to tips. A very vigorous grower.

soulangeana San Jose, YABC

Comes into bloom very early and is certainly the largest of the light colored soulangeana forms. Flowers white lightly flushed pink. General effect is pink.

soulangeana verbanica, XA

Very large flowers fully colored light purplish-pink. Unopened buds long, slender and pointed.

Flowering Quinces

Chaenomeles (Cydonia) (4-5)

Our 20 years work in breeding better forms of Flowering Quince has been recognized by both California Horticultural Society and Royal Horticultural Society (of England) by their Awards of Merit. With two or three exceptions every variety we now offer was originated by us.

(Quinces must be ordered in multiples of 5 of each variety as they are bundled in that way when dug).

1956 INTRODUCTION

CLARKE'S GIANT RED (Pat. App. for)

The more than 20 years of Quince breeding by the late W. B. Clarke has resulted in producing what we believe to be the largest and finest red flowering Quince to date. **Clarke's Giant Red** is a deep, bright red of great brilliancy, $2\frac{1}{2}$ inches or more in diameter. The enormous overlapping petals and prominent golden stamens make a showy contrast. It is an orderly shaped shrub with dark green serrated foliage. Extremely free blooming, having several crops of blossoms, resulting in a long flowering season.

3 to 4 ft.	2.00
2 to 3 ft.	1.60
1 $\frac{1}{2}$ to 2 ft.	1.30

1956 INTRODUCTION

CAMEO

The finest **double** flowering Quince we have found, having 20 or more petals and a pleasing, soft apricot-pink coloring. Flowers are large and borne in great profusion on the compact, bushy plants. This variety is outstanding in every way including color, doubleness and freedom of bloom.

3 to 4 ft.	2.00
2 to 3 ft.	1.60
1½ to 2 ft.	1.30

NOVELTIES

B 3 to 4 ft.	1.75
C 2 to 3 ft.	1.40
D 1½ to 2 ft.	1.10

Letters after varieties indicate size available.

AFTERCLOW, Pat. No. 847, BCD

Flowers are large, **double** and at first snow white gradually becoming soft rose as the blossoms age. Leaves are dark green, long and slender. Growth is vigorous.

RED CHIEF, BCD; (new)

A splendid new **double** flowered form. An erect bush, flowering medium late, bearing two and three crops of flowers. Blooms are large, ruffled, double deep red.

RED RUFFLES, Pat. No. 941, BCD

Medium strong, erect, growth almost thornless. The flower petals are so large they overlap, producing an attractive ruffled effect — something entirely new in flowering Quinces. The color is a dazzling brilliant red.

FLOWERING QUINCES

SELECTED LIST

B 3	to 4 ft.	1.40
C 2	to 3 ft.	1.10
D 1½	to 2 ft.	.90

Letters after varieties indicate sizes available.

APPLEBLOSSOM, BCD; appleblossom pink.

AURORA, BCD, soft pink and carmine.

BLOOD RED, BCD.

CANDIDA, BCD; white.

CARDINAL, CD; very deep red.

CHARMING, BCD, soft shell pink; thornless.

CORAL BEAUTY, BCD, rosy-coral; lighter at center.

CRIMSON BEAUTY, BCD; brilliant rose.

CRIMSON & GOLD, BCD; crimson with showy stamens.

CYNTHIA, CD; peach pink.

EARLY APPLEBLOSSOM, BCD; blend of light and deep pink.

ENCHANTRESS, BCD; shell pink.

FIRE, BCD; deep rose red.

FLAMINGO, BCD; coral pink.

JULIET, CD; coral pink.

MARGARET ADAMS, BCD; soft coral pink; thornless.

MINERVA, BCD, Enormous vivid rose. Low but erect habit.

MT. EVEREST, BCD; white flushed lavender-rose.

MT. SHASTA, BCD, light lavender-rose opening almost white.

PINK BEAUTY, BCD; rose pink.

PINK LADY, BCD; clear pink.

ROSEMARY, BCD; deep rose.

ROSY MORN, BCD, very large soft carmine.

ROXANA FOSTER, BCD, deep shell pink.

SNOW, BCD; large pure white.

STANFORD RED, BCD; tomato red.

TEXAS SCARLET, BCD, large watermelon red; low bushy habit.

QUINCES by color only.

Red, Orange, Pink, White and Bicolor.
gal., grafted

.65

Deciduous Shrubs

Unless otherwise stated, all plants in this section will be dug "bare roots."

ABELIOPHYLLUM distichum (5)

KOREAN ABELIALEAF

A dainty, small shrub bearing many racemes of narrow tubular pure white, fragrant flowers.

gal.50

ACER palmatum (5)

JAPANESE MAPLE

4 in. pot grafted 1.25

Bonfire, new growth bright red. Very showy.

Cut Leaf Purple (purpureum dissectum)

Laceleaf (new), Foliage of spider-like appearance veined deep green with golden mottled center.

Ribbonleaf Purple (atropurpureum)

palmatum (Green Seedlings) (5)

4 to 5 ft. (balled) 2.50
5 gal. 2.00
gal.50

CARYOPTERIS clandonensis (5)

BLUERMIST

A popular new variety which grows quickly and gives a profusion of powdery blue flowers in summer.

gal.50

CHIMONANTHUS praecox grandiflorus (7)

WINTERSWEET

A rare large flowering form of the plant formerly known as Calycanthus praecox or Meratia præcox, so greatly esteemed for its very early intensely fragrant yellow flowers. Blooms from December through March.

2 to 3 ft.75
1½ to 2 ft.60

CLETHRÀ fargesii (7)

FARGES CLETHRÀ

An attractive deciduous shrub from C. China bearing small white, fragrant, flowers in clusters of drooping racemes.

gal.50

DECIDUOUS SHRUBS

DAUBENTONIA tripetti (8-9)

SCARLET WISTERIATREE

Bears brilliant orange red pea-shaped flowers in great profusion.

gal.50

DEUTZIA (4)

gal.50

magician, profuse; pink

monbeigi, white

Mont Rose, rose pink

FRANKLINIA alatamaha (5)

FRANKLINIA

Large shrub or small tree bearing cup-shaped Camellia-like fragrant single white flowers two or three inches in diameter. Foliage assumes rich autumn tints. Requires semi-shade and acid soil.

gal.75

LABURNUM Iolaburnum (5)

LOW GOLDENCHAIN

Similar in every way to the Long Clustered Goldenchain (*L. vossi*) except this is a bush form. Should become very popular.

2 to 3 ft. 1.30

PAEONIA suffruticosa (5)

TREE PEONY

We have been growing Tree Peonies for over 20 years, mainly by raising seedlings from seed of the very finest varieties. Grading is based on the excellence of flower. Plants offered this season come in white, various shades of pink, rose, rose red, orchid, and purple. Field grown 6 to 8 years, balled.

WEIGELA (5)

5 gal. 1.75
gal.50

Avalanche, white

Eva Rathke, red

Girondin, enormous carmine-red flowers.

Newport Red

praecox floreal, crimson

rosea, pink

Springtime, rose outside, flesh inside.

XANTHOCERAS sorbifolium (5)

YELLOWHORN; HYACINTHSHRUB

A beautiful deciduous flowering shrub or small tree. Leaves resemble those of Mountain Ash. Flowers are funnel-shaped with five white, crinkled petals, borne in erect panicles. At base inside are five little bright yellow horns, also a conspicuous blotch which soon turns red. Flowers profusely in late spring.

gal.50

Climbers

CAMPSIS grandiflora (7)

CHINESE TRUMPETCREEPER

Bears great sprays of funnel-shaped yellowish flowers suffused at tips with orange-red.

2 yr. field grafts, bare root 1.10
1 yr. field grafts, bare root80

Mme. Galen (5)

(Tecoma radicans x Campsis grandiflora)

Hardier and stronger growing than C. grandiflora. The flowers, borne in large clusters at end of shoots, are almost as large as those of C. grandiflora and much redder. It blooms profusely all summer.

2 yr. field grafts, bare root 1.10
1 yr. field grafts, bare root80

HARDENBERGIA Hardy Violet (8-9)

Bears a profusion of rich violet small pea-shaped flowers in racemes like miniature Wisterias.

gal.50
4 in. pot45

LONICERA macrantha (5)

Bears large yellow flowers in profusion.

gal.45

WISTERIA FLORIBUNDA ISSAI

WISTERIAS

For many years we have grown what we believe to be the best available collection of Wisterias in this country, both vines and tree form.

They range in color through dark purple, lavender, blue, pink and white, and in form, from the long-clustered floribunda (Japanese) types to the short-clustered sinensis (Chinese) and venusta (Silky) types.

We call your attention to the list and descriptions on page 52 of this catalog, and invite you to try out these spectacular climbers and trees, as they are hardy throughout the United States, except for the coldest areas of Zones 3 and 4.

ROSES

BUSH, CLIMBING AND TREE FORM

See our list #5501 for complete descriptive catalog of the finest *Northern California* grown Roses —both patented and non-patented varieties.
